ALAMEDA HIGH SCHOOL

Past, Present, and Future!

When high school is an everyday part of your life, the days pass by slowly. You feel as though you will never graduate. Little do you know, that as the years go by, the memories of your Alameda days will grow faint; each memory a little piece of your life. It was 125 years ago when the first graduating class from A.H.S. set forth on its own. We've created this book in hopes of linking together all of those pieces of time, to help save the memories you've gathered from the 1998-1999 school year.

In 1973, A.H.S. students participate in crazy Homecoming activities. Dressed up in costume, students race down the sidewalk towing people behind them. 1998's Homecoming activities included the spirit rallies at lunch, the parade, the crowning of Queen Erin Earlywine and King B.J. Kang, and the dance.

With a huge turnout at the dance, these students boogie down all night!

It's So Hard To Say

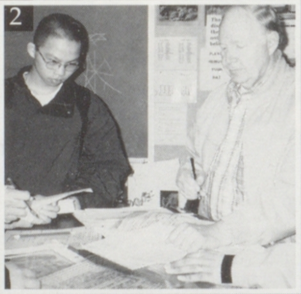
"An Investment"

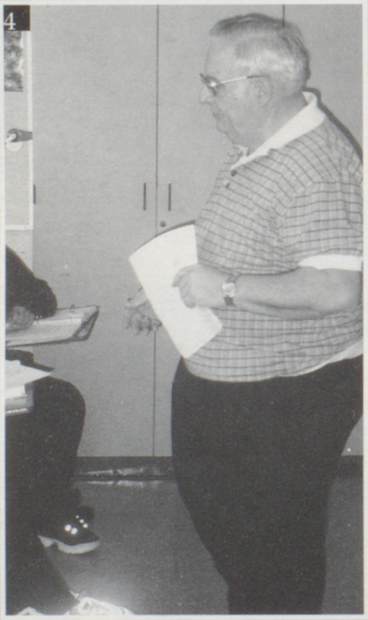
How many years of excellence have Mr. Cooper, Mr. Fox, Mr. Fredgren, and Ms. Gibson spent at Alameda High School? The school celebrated the One Hundred and Twenty Fifth Anniversary this year on March 6th of 1999. It's hard to believe the number of years that this school has existed. But, many of these teachers have also been here for a number of years. For example, Mr. Cooper has been here for exactly forty years. You wouldn't believe the number of students he and each of them has come across. Imagine the influence they have made on students! The times spent with their students and fellow faculty members, an "investment" as they call it, was what they said made them stay at Alameda High.

"I've been teaching here for forty years now and I have no regrets. I started right out of college because I didn't know any better! The only thing I wish is that the students would have gotten my dry sense of humor! I've made many friends including teachers and students and I will miss them all. It's like leaving my home all over again." -Mr. Cooper

"I will miss the kids because I have been here for 35 years. I enjoyed working with them and a lot of the time we had fun mixed in with the work. I have been working with all the other teachers for a long time and everyone has been very nice and I consider most of them friends. It's time to retire because I've been here for 35 years and it takes a lot of energy working all the time. I just don't have as much energy as I used to. I will miss being here and I'll come back to visit everyone and I will look forward to that." - Mr. Fredgren.

"I have been a teacher at Alameda High since 1968, with breaks to teach at other schools around Alameda. I worked as a teacher as a resource program" -Ms. Gibson





1. Ms. Gibson relaxes after grading the assignments.

2. Working hard with his students, Mr. Fredgren helps correct the mistakes on their work.

3. Mr. Cooper starts another day of class by writing the warm-up problems on the overhead.

4. Mr. Cooper asks for the tests as the students are rushing to finish a proof.

5. Mr. Fredgren takes role while his student waits to get her question answered.

6. Ms. Gibson is ever present in the hall way.

The famous purple Teletubby, Tinky Winky, was accused of being gay by Reverend Jerry Falwell. Tinky Winky was accused because he is purple and has a triangular antenna on his head (both symbols of gay pride) and because he carries a "purse." The Christian Action Network in Forest, Virginia has proposed that shows with homosexual content be labeled with, HC, as part of current television ratings.

On September 8, 1998, Mark McGwire, first basemen for the St. Louis Cardinals, broke the world record for the most home runs hit in a single season. He ended the season with 70 home runs. Sammy Sosa ended the season with 66 homers.

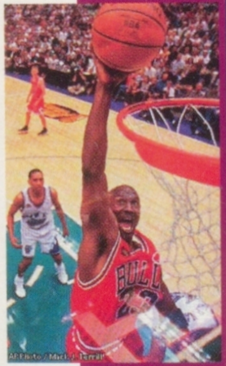
In a landmark decision, the United States Congress impeached the 42nd President of the United States of America, William Jefferson Clinton. On December 19, 1998, he was charged with obstruction of justice and perjury. Congress has begun to present its case before the United States Senate.

October 5, 1998 is a day that will burn bright in our memories. Someone started a fire in a garbage can in the upstairs boy's bathroom in the Old Building. Someone pulled the fire alarm but it failed to sound. The administration was forced to evacuate the buildings via the intercom. Teachers cleared classrooms all over campus because no one could ascertain what building had the fire.



On Wednesday January 17, 1999 Pro Basketball star Michael Jordan announced his retirement from the league. At the press conference he answered one last question, what his (deceased) father would have told him to do.

Becky Hirschfield proudly wears her, "Drug Free Begins With Me," ribbon.

Students showed their support for a drug-free environment by wearing "Drug Free Begins With Me" ribbons. For the first time Leadership and the administration sponsored a Drug Awareness Week that included several seminars which discussed some of the most common controlled substances.

1) The tree three years ago with all three trunks intact. 2) The damage to the second trunk of the tree. (The third trunk was removed in '97-'98 due to rotting.) 3) The lone remaining tree trunk. 4) The stump after the last trunk was removed.

Students remembered the tree at a remembrance ceremony the day after the tree was cut down.

Death of a Tree

Vandals killed our landmark, "The Tree," by cutting into the trunk in a string of attacks that spanned several weeks. It was ultimately removed because the damage caused a risk of topping over and crushing people.

i miss my mommy...but i really miss her food!

well mom and dad, i have good news, and i have bad news. good news first: it seems that your food is great, and as we embark on new college adventures, we truly will miss your good ol' home cookin'! the bad news, however, is that (not surprisingly) satisfying our incredible hunger is most prominent among our worries.

what will alameda high's last graduating class of this century miss the most as they head off to college?

- an astounding **41%** will miss mom and dad's **home cooking!** (it doesn't hurt that this food just happens to be free!)

- don't worry **mom and dad, 34%** of us will be home sick and miss you terribly! (expect collect calls!)

- **12%** of he class of 1999 is extrememly concerned about clean clothes, and will miss the **free laundry** the most. (at least we learned something at home!)

- finally, a meager **10%** will somehow, someway, miss their oh so gracious **siblings**! who would have guessed?

the far, far away future

yes, we all understand the potential horror of a high school reunion, but it's still fun to imagine ourselves and our lives ten years from now. here is how the class of 1999 envisions themselves in 2009.

- surprise, surprise, and astounding **78%** of us see ourselves leading somewhat **normal** lives, although our interpretations of normal may vary.

- well it seems that our class is not one to favor the game of big business monopolies. only **1%** see ourselves with **bill gates'** cushy job!

- wow! we also enjoy our precious privacy! only **.07%** of seniors predict that they will be **celebrities** in the lime light.

- thankfully, only **.04%** of the class of 1999 sees themselves battling with a cheating mate or revealing that they are in love with their mother's husband on **jerry springer**. contrary to the opinions of some teachers, we are a pretty normal bunch!

- polls reveal that the class of 1999 is a very independant group. **none** of us predicts that we will still **reside with our parents** as we attend our 10 year reunion.

aaaaaaHHHHHHH!!!!!!!

sure, getting out of high schooL and escaping aLL of the "chiLdish nonsense" that goes on throughout the haLLs has its perks, but there is aLso a down side; how on earth are we going to survive the terrors of the reaL worLd?

mom, dad, we have to give you credit. 38% of us have nightmares about how we wiLL ever Learn to do and perfect aLL that you seem to do so easiLy.

the concLusion seems to be that **work** is not fun. at Least that's what **34%** of the seniors feLt as they voted that finding, and keeping, a job is what scares them the most about post-high schooL Life.

Life with a friend is aLways more pLeasant, or at east Life with a parent, someone to taLk to and wake you up. that's according to **19%** of the cLass of 1999.

weLL, there are aLways a few graduating seniors who are fearLeass and can't wait to get out into the reaL worLd. onLy a mere **3%** of our cLass faLLs into this category.

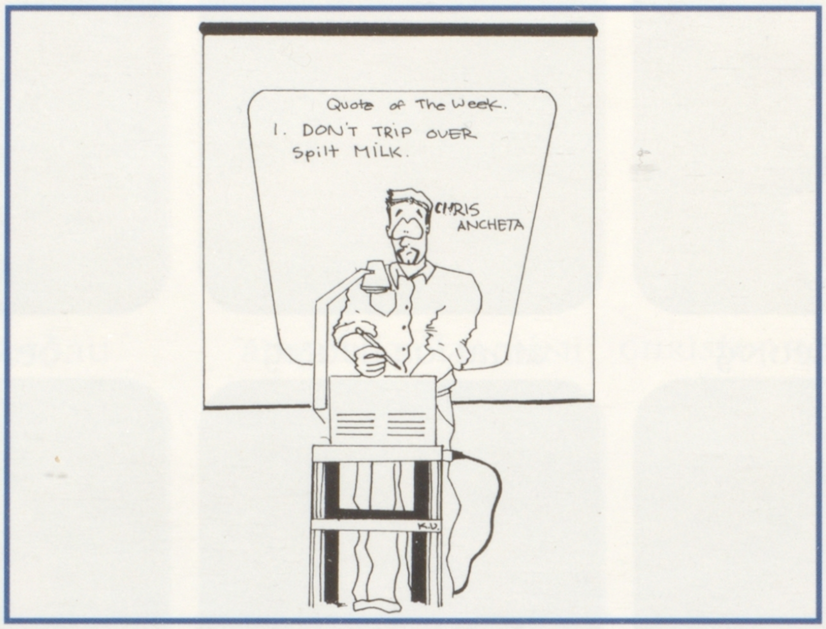
presenting...high school memories



Quote of The Week.
1. DON'T TRIP OVER Spilt MILK.
CHRIS ANCHETA
K.U.

there will always be little bits of high school that will stay with us forever. it is this little bit of information, no not facts and data, but truly important things, which make all of our strenuous days in the halls of alameda high school worth the effort. for many, we will never forget mr. manno's jokes. don't ever ask him if he's serious, or he might reply, "no, i'm roebuck, who's minding the store?" entertaining is the only word that comes to mind to describe mr. manno's sense of humor. for others, mrs. quan will always hold a place in our hearts. no matter how much begging and pleading, this is one teacher who insists on homework **every single night!** and of course, who could forget zany dr. dauber? his amazing hair gives a bit of insight into his non-traditional approach to teaching, and we will never forget his funny but helpful little toys! so, after the diplomas have been framed, and the parties have come to an end, each member of the class of 1999 will have at least one fond memory to keep for life. written by: kathryn thomas

Tough, but not impossible

Many aspects of AHS are tough but not impossible. For example, finding a bathroom with soap, finding a soda machine with more than Diet Pepsi in it, making it through freshman hall "unmanned", Finding a second year freshmen (aka sophomore) who doesn't pick on first year freshmen. And the hardest of all: finding a senior in class on a sunny Friday afternoon. But on a serious note;Junior year is the year to prove yourself to colleges; they decide your future based upon your transcript. Everything that you've worked for will be shown on that one piece of paper. It is "tough but not impossible."

Waking up to the Real World

Your Junior year of High school is the year you begin to realize that there's only two years left before reality sets in and you are out on your own. Many History classes help us to prepare by involving speeches and mock court cases in the classroom. In order to become who we want to be, we must work hard and pay a lot of attention in class. (Sleeping with your eyes open does not count !)

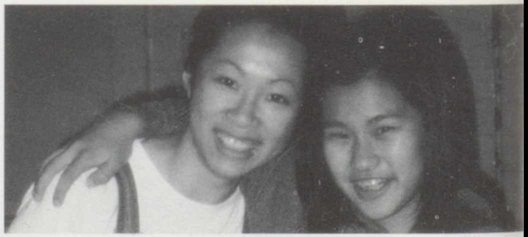
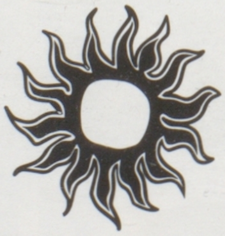
Tina Lee and **Catharina Koh** take time from their busy lunch hour to show their Junior pride at the "circle".



Seon Song and **Quan Cao** are all smiles even bright and early Monday morning.



Taking time out to relax...

Junior year is the most stressful year spent while in High School. You're consumed with worrying about which colleges to apply to, whether or not you are going to graduate, and taking time out to study for those SAT's that are creeping around the corner. Some Juniors, however, find time to put everything aside and just relax.

Yerri Shon and **Sunny Lee** take a moment to recover from their lab experiment in Science.

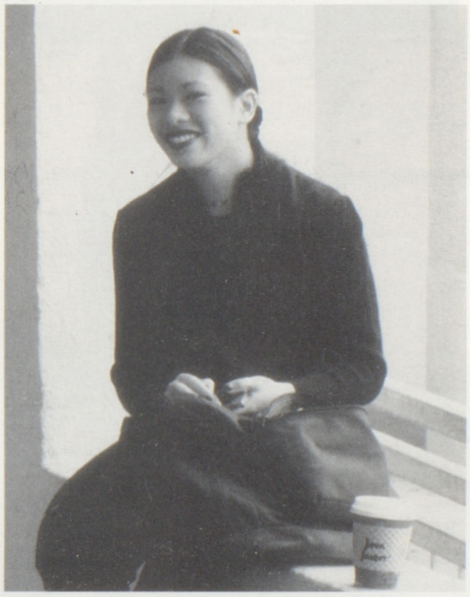
Ginger Haun and **Jamie Sawyer** spend a gorgous Alameda afternoon high up in the former tree.

Wendy Tran, **Karen Hsu**, and **Sonya Wong** relax by going out to dinner.

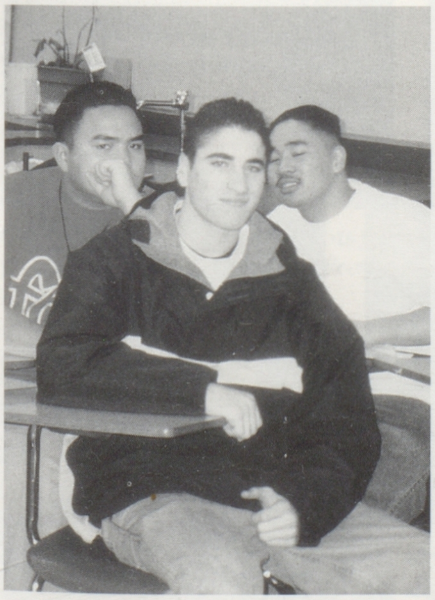
Brynne Destafney and **Amanda Brown** are always busy with sports and school but still know how to let go of stress.

C.A. Ibenez, Josh Adragna and **Joey Katich** hang out in the halls during passing to regain themseves after their tough classes.

Tara Barnes and **Kathy Chandler** give leisure time a big thumbs up.



With a cup of coffee by her side **Sonya Wong** tries to breathe deeply before her big chemistry test.



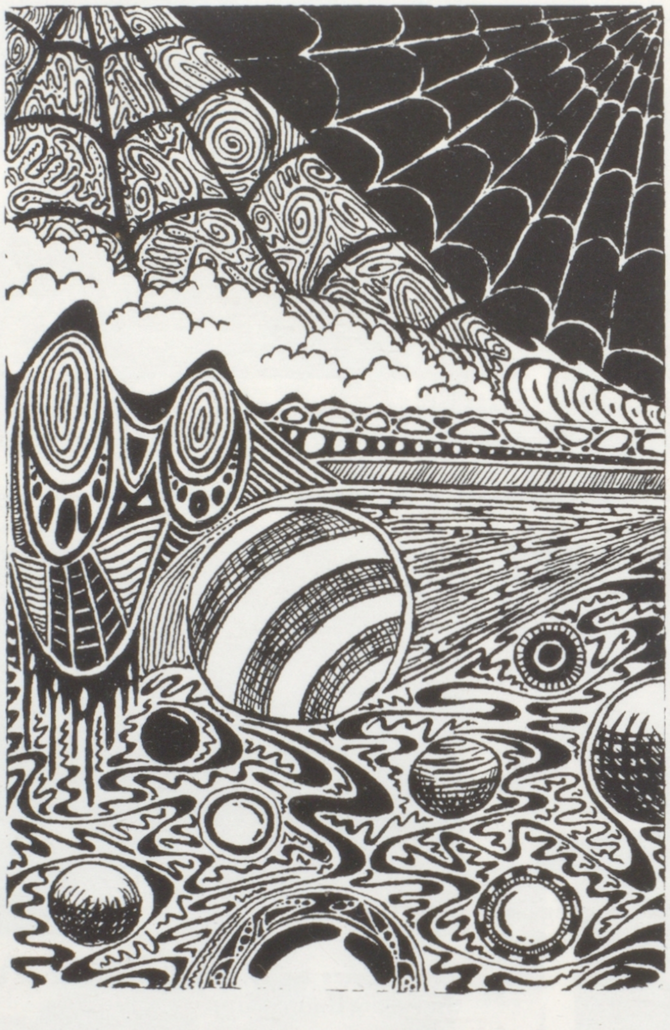
Alex Diez can only look up quickly for a picture because he is so enthralled with Mr. Hailey's explanation of molar mass in his second period class.

A big group of studdly Junior guys "kick it" in the main hall.

Rick Welsh and **Colleen Congress** find their place to relax up at the circle.

Outstanding Juniors

J.J. Baker, when not in school or swimming Coach Rodd's killer sets spends as much time as he can enjoying kayaking through the fast white water on the Russian River.



Robert Hanson creates many scratch boards in Ms. McAllister's 4th period art class. This form art is very time consuming and takes tons of concentration and a loads of imagination.

Lindsay Kendell, enjoys spending her time perfecting the art of riding horses. She not only owns her own horse, but has a ranch that belongs to her family.

Watch **Lindsay Kendell** ride like a pro. Go Lindsay, Go!

In **Michael Sheafe's** spare time, he sharpens his brains and wit smashing opponants in lap top chess.

Can you name that famous caterpillar? **Justin Carnes** uses his well-honed acting skills to change faces in Alice in Wonderland, the Drama Department's latest creation.

Chris Allen (*aka* Elmer Fudd) spends his three-day weekends hunting.

I was so embaressed when ...

"I remember the opening afternoon for the play Alameda High School put on, Alice in Wonderland. We were so nervous. In the jury scene, where all the actors were on stage in their marked places, we ran through the scenes lines about three times but everyone could not fight back the laughter that overcame us."

Liana (Mudd) Ramos

"The time would be last year and there was this really hot girl that I was trying to spit game on. I thought she was so beautiful and very charming, that one day I decided to walk up to her and introduce myself. All of a sudden she walked away. Later that day my folks told me that I had a fat chunk of my burrito, left over from lunch in my teeth. I was so humiliated."

Ken Ukei

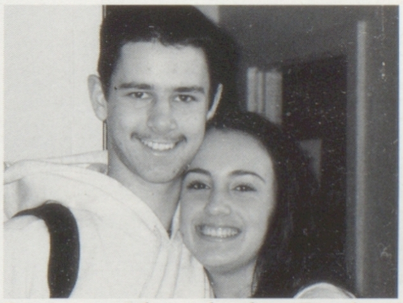
"I was at the Saint Jose vs. Alameda High basketball game, it was half time and I was starved. I was totally craving chili-cheese nachos. I walked into the gym to sit down, and I slipped on the wet floor! When I looked down, my nachos had splattered all over the ground. Everyone was staring at me, laughing hysterically. The school janitor told me to clean the mess I had made, and threw a rag on the floor by where I fell. I was totally humiliated."

Colleen Childe

Shhh, I've got a crush on you!

Courtney Mogg has had the hots for junior **Justin Carnes** since her Freshmen year.

Kelly Wilson has admired **Adam Rogers'** smile from afar.

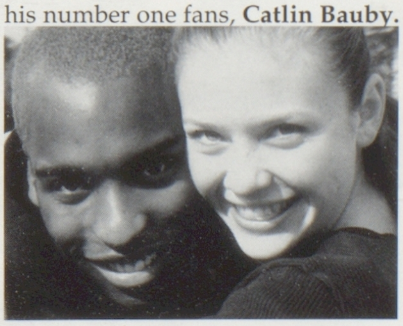


Ever since 8th grade, this "Peaches" performing rock star, **Conor Patterson** has had a crush on one of his number one fans, **Catlin Bauby.**

Drew Dobbins could not fight the power of **Michealyn Smith's** enchanting smile.

Senior **Melanie Rhoades** fell for "Humpty Dumpty" himself, junior **Craig Corica.**

Chris Allen knows that **Sonya Wong** will always be there for him, that's why he has the hots for her.



Senior hunk **George Bullock** loves gazing into junior **Shelley Mills'** deep green cryptic eyes.

Schedule of the day!

"What does everyone do in there?"

The class in room 401 spends the day by learning useful skills to successfully live their lives. This year, the ten transition students spent their time learning to work efficiently at their jobs, learning daily living skills, taking time out for leisure activities, volunteering at the animal shelter and learning valuable skills such as: reading, cooking, and computer skills. This self sufficient class spends the profit earned at the student store in buying Y.M.C.A. memberships, food for the class, and support for leisure activities.

When the students were asked their opinion about their class, they responded cheerfully. "I like this class. I'm a good worker at my job and I like to buy clothes with my pay check," said **Jaclyn Sagurit**, "We like making new friends, I have fun in this class and I like taking pictures," said **Chris Ventanilla**.

The 1998-1999 faculty this year is a dedicated and caring staff. Most of them are here for a majority of their time helping out students and making them feel as if they have accomplished something in all of the time they spend at school. There are not many days that you don't see Ms. Macy or Ms. Sigmon in their rooms hours after school is out, helping kids understand. There are teachers like Mr. Manno who makes Government fun to learn and get kids involved in politics. He makes sure kids know that they have a right to speak their mind in the world . Ms. Rudd sees to it that the grades her kids get are good, but worked for. Ms. Wong makes herself available at home by going online and helping her students prepare for tests. These teachers care and should be recognized for their efforts, because they are as much a part of the school as the students.

Volume 99 No. 10 Friday, June 11, 1999 Alameda High School

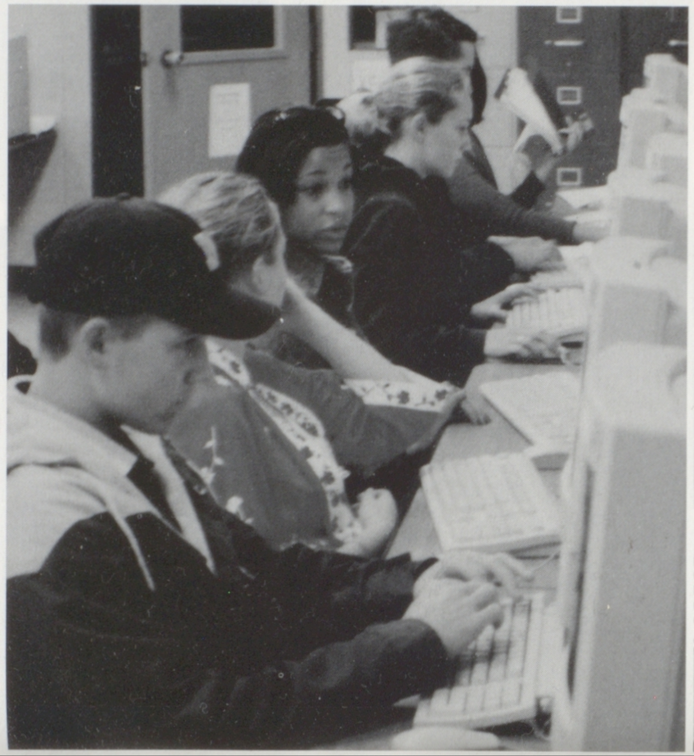
Charged each year with the task of putting out 10 amazing and interesting issues of *The Oak Leaf*, 46 journalism students come together every year ready to work hard and accept the challenge.

This year there have been many changes to the structure of the class.

There are two levels of journalism, journalism I and II. They were originally divided into two groups, 3rd period and 5th period but due to scheduling difficulties 5th period moved to zero period.

Unlike last year both classes have a mix of journalism I and II students.

Sean King, Amanda Kruger, Stephanie Williams, and **Shelby Padway** complete their stories during zero period.



Andrés LuJán and **Robbie Hild** take a break from their work to play a game of chess.

The Acorn

The Acorn was originally served the purpose of the school newspaper and yearbook. It was created in 1899, 25 years after our school was founded. It was called The Acorn because the acorn was the senior class emblem. This year we are celebrating the 125th edition of The Acorn. Yearbook is offered during 4th period in room 201 and it is taught by our advisor Ms. Klinger, but the class is mainly student run. Staff members are taught basic page layout and design, and after mastering these concepts they are taught desktop publishing on PageMaker. Students learn how to create captivating and interesting page layouts while learning photographic and copy writing techniques. Members must learn how to adhere to deadlines, cooperate with others and pay attention to detail.

I get to work and interact with different people. I've met some really interesting and creative people through yearbook.

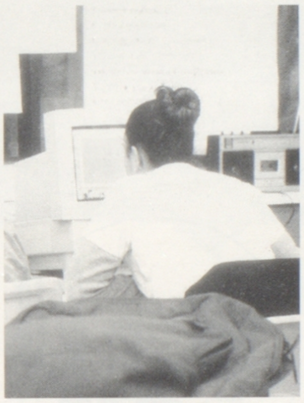
Lisa Horton

I really like advising yearbook because you get to work with students as part of a team instead of in the typical teacher fashion.

Ms. Klinger

Making this book is a piece of this school's history. It's cool that in 125 years that students will look back and like what we did.

Jennifer Brophy



Esther Essoudry does a final check on her page.

Jessica Perez thumbs through a yearbook for unique ideas.

Yadira Aguilar and **Rheanna Burdette** search the expired yearbooks to make sure that the new one excels in every possible aspect.

The spirit of the 40's is alive in the chess club! Yes, clubs too have changed. The activities might be slightly different; the people have definitely changed; but the goals and accomplishments of each organization has remained the same. Students at Alameda High are still extremely involved in the club activities. Keep up the great work, Hornets!

This ad was published in the 1968 A.H.S. yearbook. With a girl dressed for the times, this “groovy chick” shows her support for Goldman’s clothing store. Unfortunatly, 30 years later, Goldman’s is out of business. Times, they‘re a changin’.

Well it's almost that time. Graduation will come and go, but true friendship will last 4ever!! **Natzelhi** - hon, it's been 4 long yrs & now we're getting outta this place ... & on to bigger & better things - I think. So, u & I have been through mucho - 2 short words: Jr. Yr!! Need I say more? Even though there were peps who tried to break us up - they always failed & to tell u the truth - it probably brought us closer☺ Mh & Bf will always bring back memories, although not always gr8 memories, they will be memories! APUS and all those peps in there ... Miss " and Miss Judge - puh-lese!! Let me tell u, I'm not sure if I would have been able to survive through a whole yr of that class w/o u! Giggle H2O & Butt-face - what wusses - can't even be direct to any1's face - but those 2 & mh r the least of my concerns now. U really have been there 4 meeh & I'm never going to 4get u. And when some1 tells us "Geez, that girl Alex sure is quiet," we can both look @ each other & laugh cuz we both know the REAL Alex (two words: back-seat & singing ... nothing else said). I love u girl - & always will. "I think that this is the beginning of a beautiful friendship."☺ **Alex** - well, well, well, our time has come - we're finally graduating - it's about DANG TIME!! So, u & I have known each other 4 almost 10yrs now ... oh my!! We have so many inside jokes, I don't even think I could remember them all. CREAM CHEESE rather than sour cream plse!! Through high school we've always stuck by each other when it came to lunch ... although this year we certainly go further and get more extravagant. CHEVY'S!! We went from going to the corner store and getting burritos to going to Chevy's and getting sandwiches at Togo's!! You & I have always had fun 2gether though ... Great America w/ band in 8th gr - getting stuck in that d@mn Delta Flyer thing - in the rain - with Rana!! Sally is dead ... gummie bears ... carnuba wax, drivers' ed & smoothies ... dr. pepper ...the lifeguard from the picnic (whatta cutie) ...CARNIS ... bowling and swimming ...geez, we have a lot of inside jokes but I can't remember them all ... oh well. Thanks for all the memories though!! I'll never forget 'em. PS - How about that balloon hat from Chevy's? We should get another 1 of those! **DJ** - my main man! Thanks for everything. U r a superior friend. U stuck by me when I needed u & helped me get up when I had fallen - u never let me down. U truly r important 2 me & 4ever will be! Thnks again! **Angelina, Diana & Jessica** - w/o the 3 of u yrbook would never be the same ~~ there would be no1 there to make me laugh or cheer me up when things have gone wrong. Thnks 4 always being supportive. U 3 r exceptional yrbook members! **Mrs. Falletti** - the 1 & the only. In all my 4 yrs here, I've never worked so closely w/ someone as u & enjoyed it as much as I have. U've always been a supportive person & always quite kind. I'll never 4get any of the things u've done or even have helped me through. Thnks lady - u're 1 in a million!! **Ms. Wong** - Well it's time 4 me to go - oh no! What ever will you do? Don't worry, u can find me easily - just talk to my mom! But seriously - thnks 4 being a supportive person & always going that ONE xtra step - it really means a lot. I've enjoyed being your aide & working w/ u - I know u think I must be crazy to want to teach 4 a living! I guess I am! Thnks 4 everything - you'll never be 4gotten. **Ms. Klinger** - thnks 4 being such a interactive teacher w/ yrbook ... things wouldn't have been the same w/o u as the advisor. Good luck 2 u & the staff nxt yr. Last, but certainly not least ... **Darren** - You have been my shining light this past year. You've always believed in me even when I didn't believe in myself! You've had confidence in me and have convinced me to have confidence in myself. From June 10 to June 12, June 19 to July 24 and so on and so on ... you've helped me create many memories that will always be an important part of my senior year ... as well as my life! I've always known that you would be there for me through thick and through thin ... just as I would for you! I've been able to turn to you and cry on your shoulder and you'd just listen to me and tell me that things would work out for the better ... and usually they did! Even though Jingle Ball Boy introduced us ... our relationship would never had happened if you and I didn't make things work ... and they do ... like clockwork now. We've been there for each other when things in yearbook didn't go quite the way each had planned and we worked together to get through them ... w/o killing half of the staff! You've made me see what true love really is and helped me find it in our relationship. What we have can never be broken ... no matter who tries to do it☺ Winter ball was great (not including "you know what") and I'm so glad that I got to go with someone so special ... it made it that much more worthwhile. I love you boo ... always have and always will. No matter where our lives take us - you'll always have an important place in my life and in my heart.

... My girl is so special, I want to give it all to you, loving you on and on. You know that I want you say it you know that I need you say it you know that i love you say it, my love just goes on and on and on ...

Hey there honey. Look at this! A full page just for you and me! Remember all the fun times we had together? I still remember our first date. (And yes I was really sick. Don't ever think I didn't want to go out with you) We had a lot of memories and I'm sure we'll have many more. You mean so much to me and I'm so glad to have you as a part of my life. What would I do without you? I love you so much and I always will. I know we have our little squabbles but in the end we get through it. You are the most important person in my life. I am so glad I met you (yea, I guess I have to give *some* credit to "Jingle Ball Boy" but its okay. It's worth it.) Even IF we break up, you will truly always be my best friend because there is no one else that is willing to listen like you do. You really are a true friendYou're always there for me and I will always be there for you, no matter what. I love you.

YOU HAVE TO DANCE LIKE NO ONE IS WATCHING, AND LOVE LIKE IT'S NEVER GONNA HURT

To live fully is to let go & die with each passing moment, & to be reborn in each new one. I used to always think that I'd look back on us crying and laugh, but I never thought I'd look back on us laughing and cry. Every now & then we find a special friend who never lets us down... who understands it all, reaches out each time we fall. Never apart. Maybe in distance... but never in heart ☺

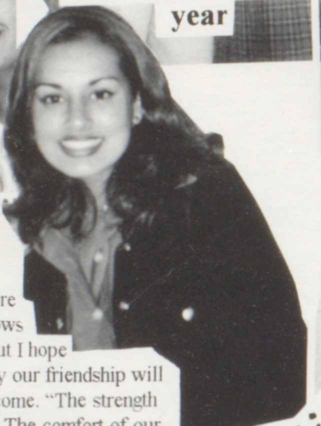
It's Tuesday I have to tell you about Monday

You have always been there for me through everything. You never failed me or our friendship, even at our bad times. Most of all we share the laughter in us. I know I have gone through many changes in life but never are you one of them. Not only do you know all my first time exp. but you were there for me also. I could still see the future, you with your house, family, and career, and I living in a condo alone still not married and just kicking it. I love the fact that our friendship is so different, weird, but true I respect our friendship and the time we shared together.

SHUT UP Nilab



Khatira,

Well where can I start it's been an adventure. We're finally through and who knows what are future will hold, but I hope whatever will come our way our friendship will survive the many years to come. "The strength of our friendship is honesty, The comfort of our friendship is caring, power is never important, but respect always is." I want to thank you for the many special years we spent together, the laughs, the cry's, the confusion, the secrets, and even the mysteries. Thank for always being there when I needed you to help me, encourage me, and to just let me know that I am not alone, and most of all for being patient and understanding. I know we had our bad days but to me it was just a test of our friendship, a test that successfully passed. We've been through so many memories and I'm ready to start making more. "Each day I realize how important a friend can be, and how lucky I am to have one like you." Just remember whatever happens you will always have a special place in my heart.

Mom & Dad,

Your littlest baby is all grown up. Thanks for all your love and support along the way, for letting me dream while keeping my feet on the ground. I love you.

Love your "Muffie"

Dearest Lawrence, Melanie, Joseph, Abel, Cuong, Shirley, Assad, Jackson, Soky, Aristotle, Hoin, Ken, Abenir, Brian, Jacky, Evan, Ignacio, Goldman and Chu –

When I look at your bright faces I get all lumpy in my throat. You are a class of contrasts; from the beginning of the year I knew you were a poetic, sweet group. As the year spun on, I saw another side of you: the fast-living, multiple-traffic-tickets-getting side. Working with you all year, watching you struggle with the competency exam, as well as life issues teaches me about courage in the face of adversity.

I wish each of you wonderful things in life . . . make wise decisions and follow your heart. Oh, and spit your gum out!

I'll miss you,

Ms. Klinger

Alex,
You did it!
Congratulations.

First and foremost I've gotta say thanks to Brophy for being such a great co-editor. It's been 4 long years and you've always been a hard and dedicated worker ... this book would not have been possible w/o all your time and dedication. Thanks and good luck next year. Thanks to the Staff for putting in lots of time and loads of effort. You made a great product and you worked hard. Be proud of yourselves. You deserve a break finally!! Ms. Klinger - you've been an excellent advisor. Thanks for putting up with all the crap that took place w/in the walls of yearbook. Laura & Jamie - good luck next year. Mom - thanks for doing all the daytime errands for us. I couldn't have done it w/o you. I hope that everyone enjoys the book. And thanks to everyone for helping us get through the year.

lisa :)

Jennifer Brophy

Well Lisa, we finished our fourth book. Be proud of our many accomplishments. When I first thought of taking this class I never realized that it would take up so much of my time and energy. Despite all of the stress, the experiences we gained are irreplaceable.

Yearbook staff- I want to thank you guys for putting in all of your extra time to finish your work. I think that we have all learned from this class just how important our yearbook really is to everyone.

Ms. Klinger- I know it's been frustrating to put up with everyone at times, but you never gave up on us and worked just as hard(if not more)than the class to help us make everything perfect. Your advice will never be forgotten. And stop singing already!

Good-bye Alameda High!

Publication Specs

The Alameda High School Acorn, volume 125, was printed at Jostens Publishing plant located in Visalia, CA. There were 900 copies printed and the theme was thought up by the two co-edtiors-in-chief, Jennifer Brophy and Lisa Horton, and advisor Judith Klinger. Our trim size is 9x12 and is printed on GL80 #191 paper. The Acorn is produced by the Yearbook class in the publications lab using the programs Adobe PageMaker, version 5.0, and Yeartech 99, which is provided by Jostens, as well as one Apple Power Macintosh, two Apple Quadra 650s and four Apple LC550s. Our cover design was created by the talent of Jostens Plant Artist Rick Weaver using ideas from the staff. The cover font used is Zapf Chancery. The staff of the Acorn can be reached by phone at (510) 337-7022 extension 5201; e-mail: ahsacorn@hotmail.com; or snail mail: Alameda High School Yearbook 2201 Encinal Avenue Alameda, CA 94501.

Ms. Klinger Ruminates . . .

Yearbook in 1998-1999 . . . we had a *wild* ride. Between the feeble, infirm 12 meg computers and the scary deadlines Jostens gave us, it's a miracle the yearbook ever got done. Whereas each of the four deadlines usually lasts six weeks, this year they were only four weeks long, with only **three** weeks to concoct the last and largest! Further, it contained thirteen sports pages and was due when the teams had barely formed. This caused panic and consternation amongst the ranks as they tried to get photos of and quotes from non-existent captains. This, in turn, caused annoyance amongst the coaches who had diligent Yearbook staffers snapping at their heels for said photos.

Despite the tensions and difficulties, many staffers this year saw their graphic design abilities blossom. They began creating much more visually interesting page layouts than we had seen in years past. I think you'll notice as you flip through the book that the use of highlights and shading plus interesting shapes and treatments is terrific. Seung-eun Hong stood out as our layout champ.

Many thanks to all my staffers who worked so hard, in particular Jennifer Brophy and Lisa Horton. To all my seniors, may you make wonderful lives for yourselves!
